

fold

## Amazon Rainforest

I make up a very large tropical region of South America.  
I have a very warm and very wet climate, receiving between 68-78 inches of rain a year.

fold

## Sonoran Desert

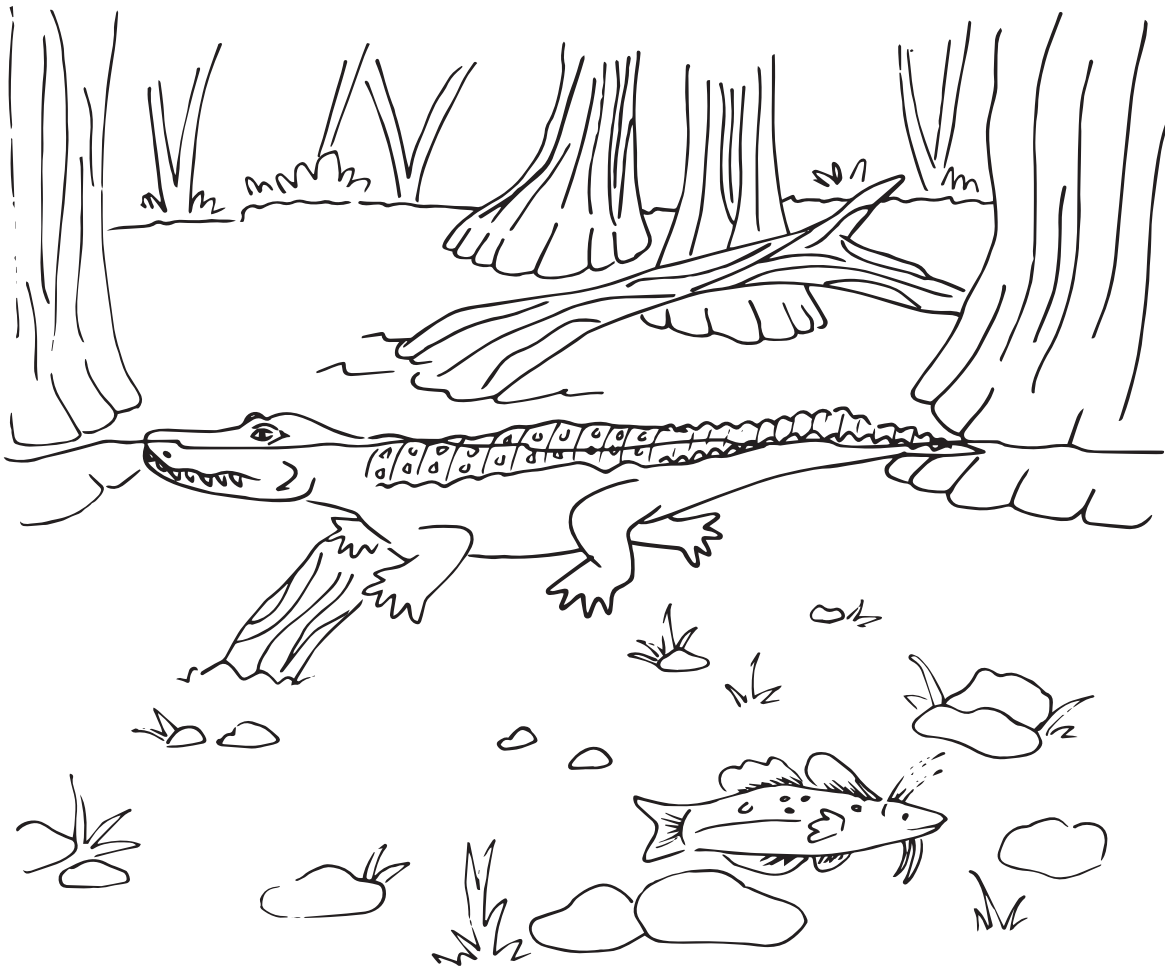

I am one of the largest and hottest deserts in North America.  
I cover parts of Arizona, California, and Mexico.

fold

## Mississippi River

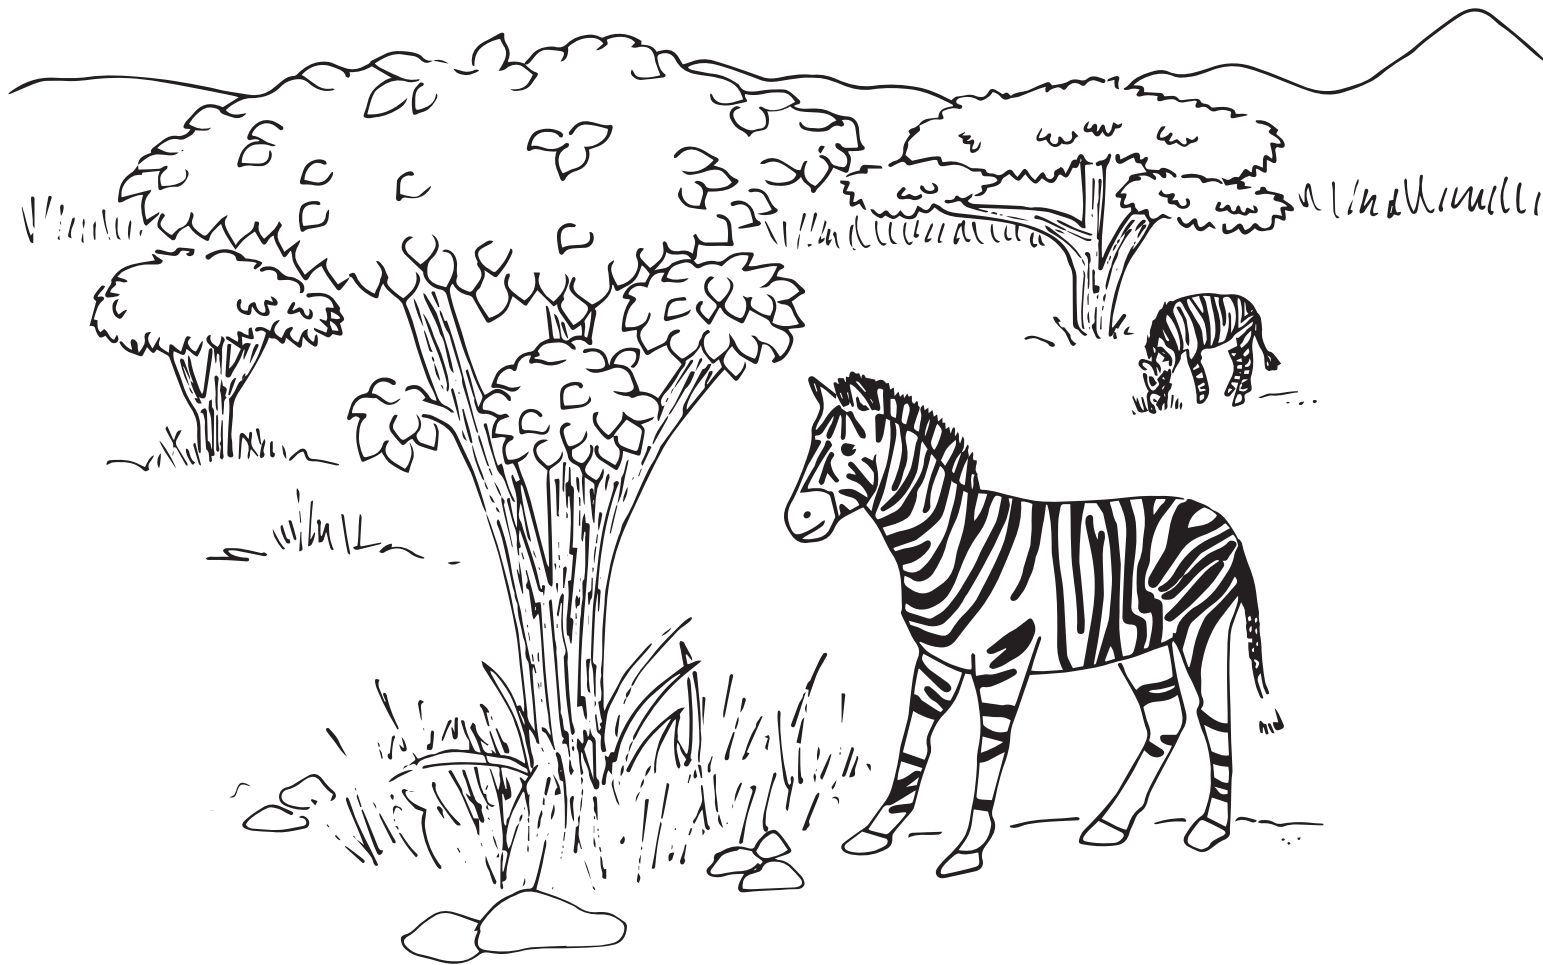

My water flows in the United States, from Minnesota to the Gulf of Mexico.  
I am home to many types of fish and plant life.

fold

## Florida Everglades

I am the largest freshwater marsh in the United States.  
I am home to many kinds of plants and animals, including fish, reptiles, and mammals.

fold

## Savanna

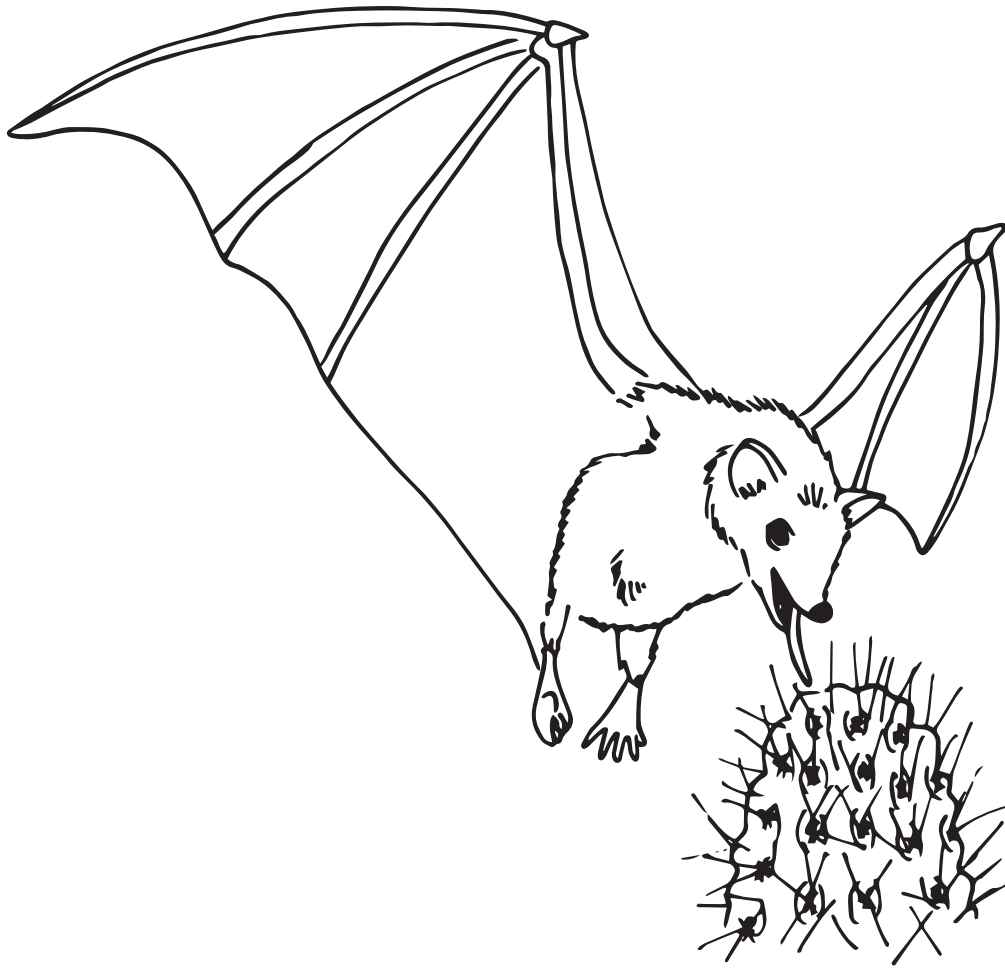

I am located across much of the African continent.  
I am made up of both grasslands and forested areas, and only get rain for one season.

fold

## Pacific Ocean

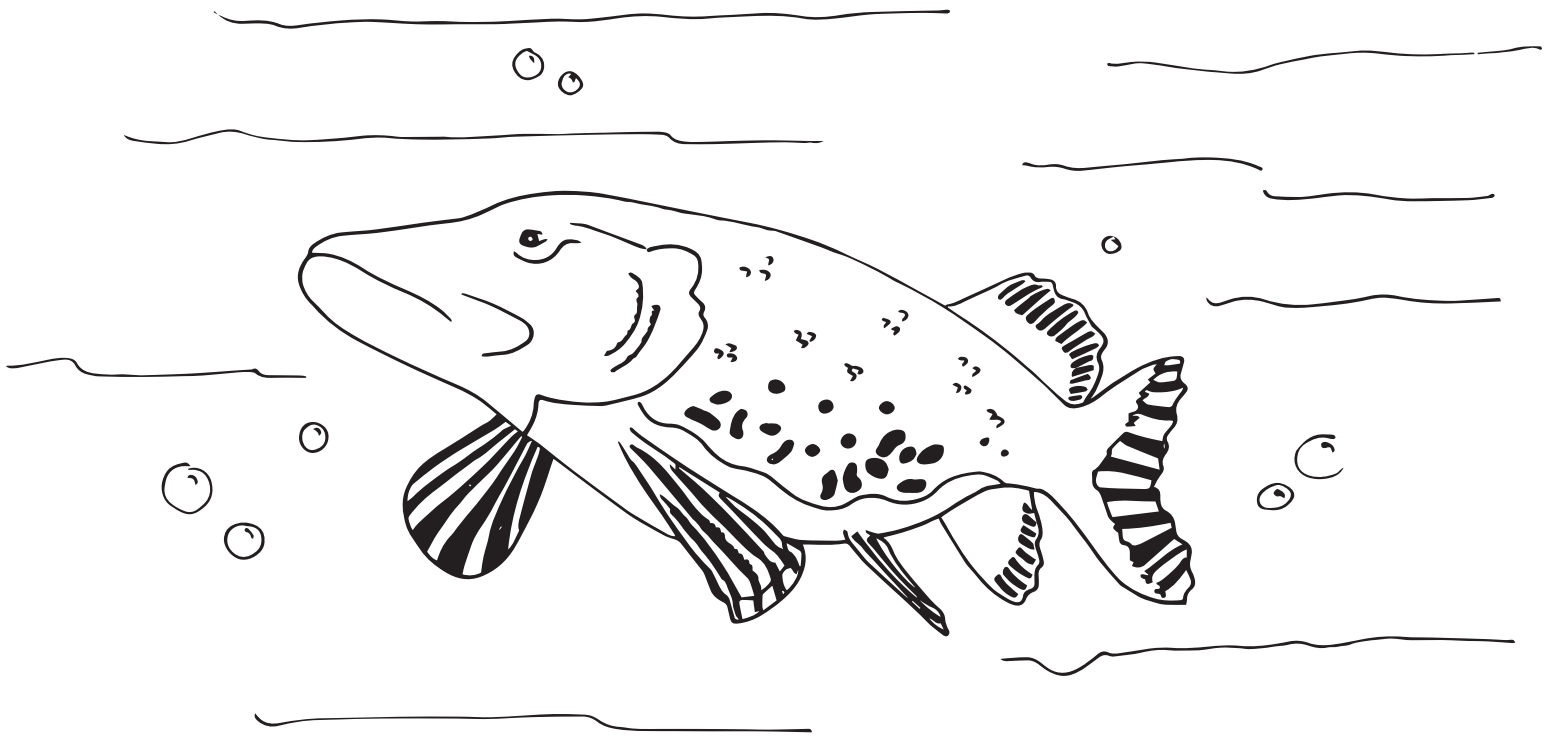

I am the largest of the world's oceans.  
I separate Asia and Australia from the Americas.

fold

## Lesser Long-Nosed Bat

I live in the hottest desert in the United States.  
My long nose helps me to feed on the flowers and fruits of cacti.

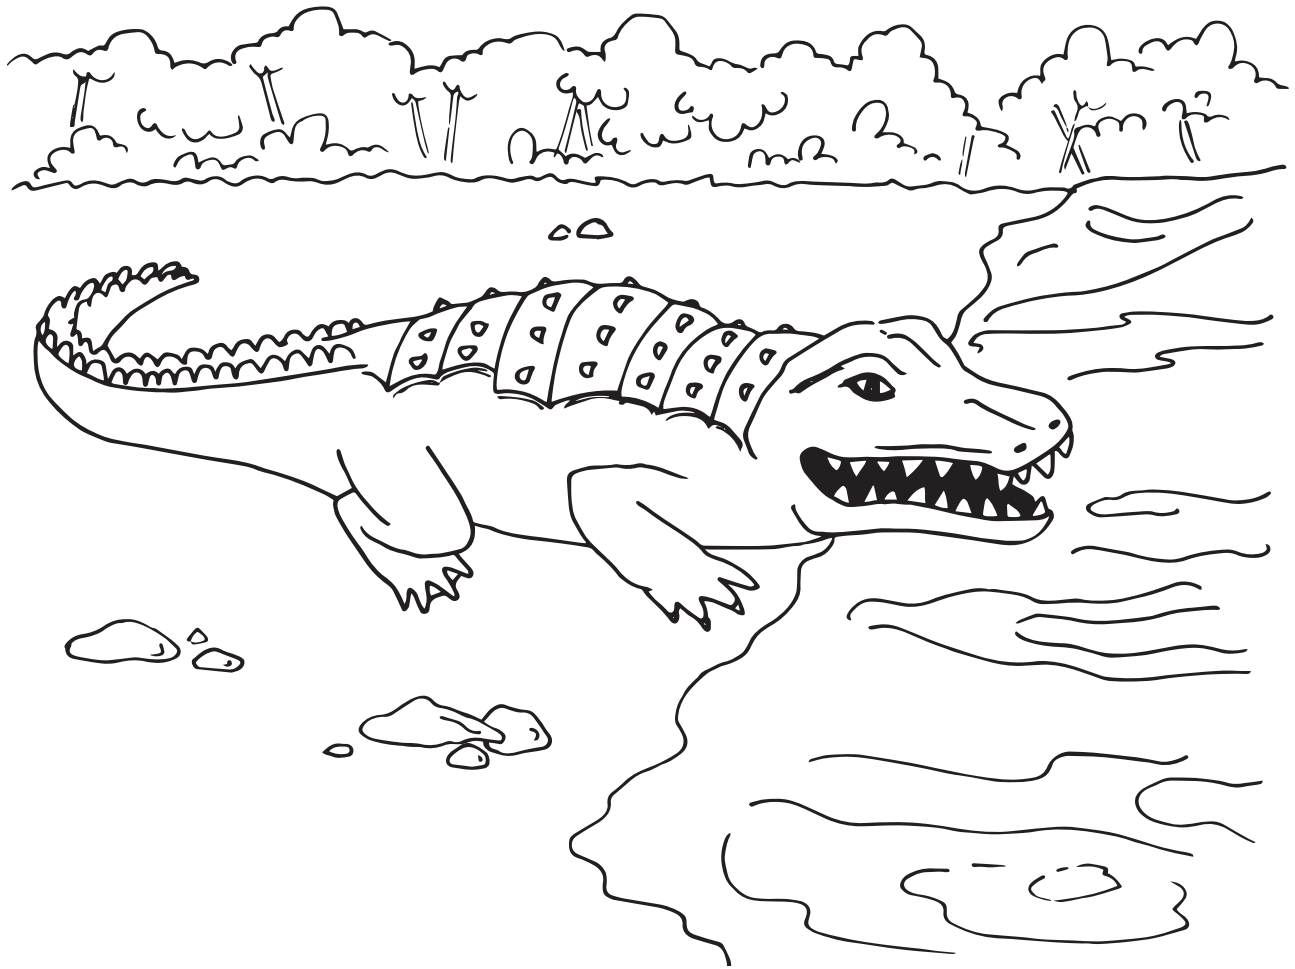

fold

## Northern Pike

I inhabit the lakes and rivers of Canada, Alaska, and the Midwestern United States.  
I lay my eggs in plants that grow on the surface of the water.

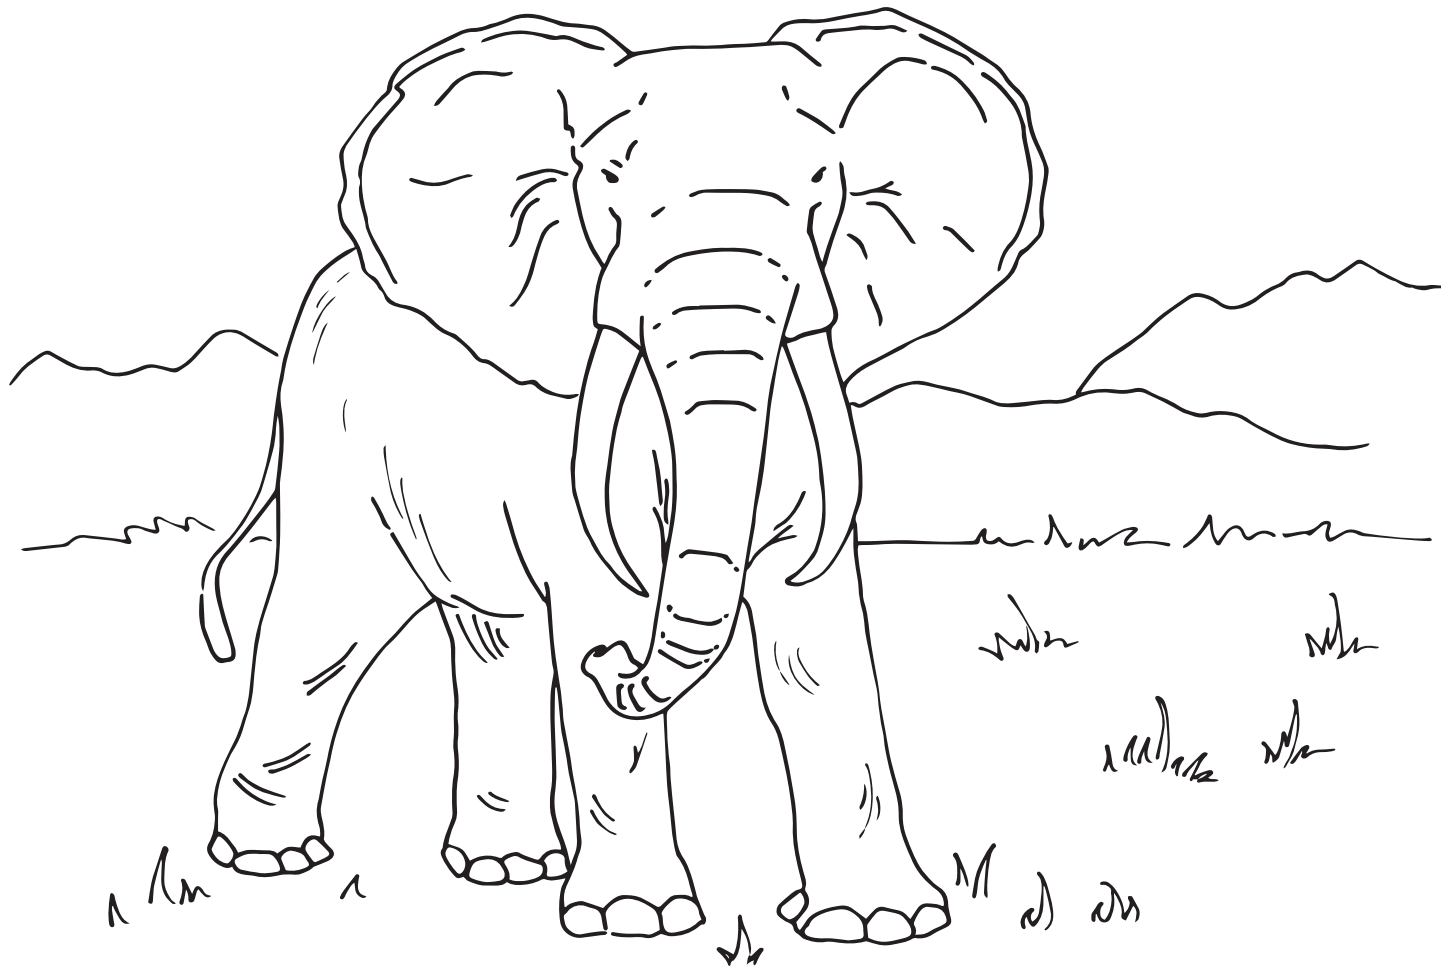

fold

## American Alligator

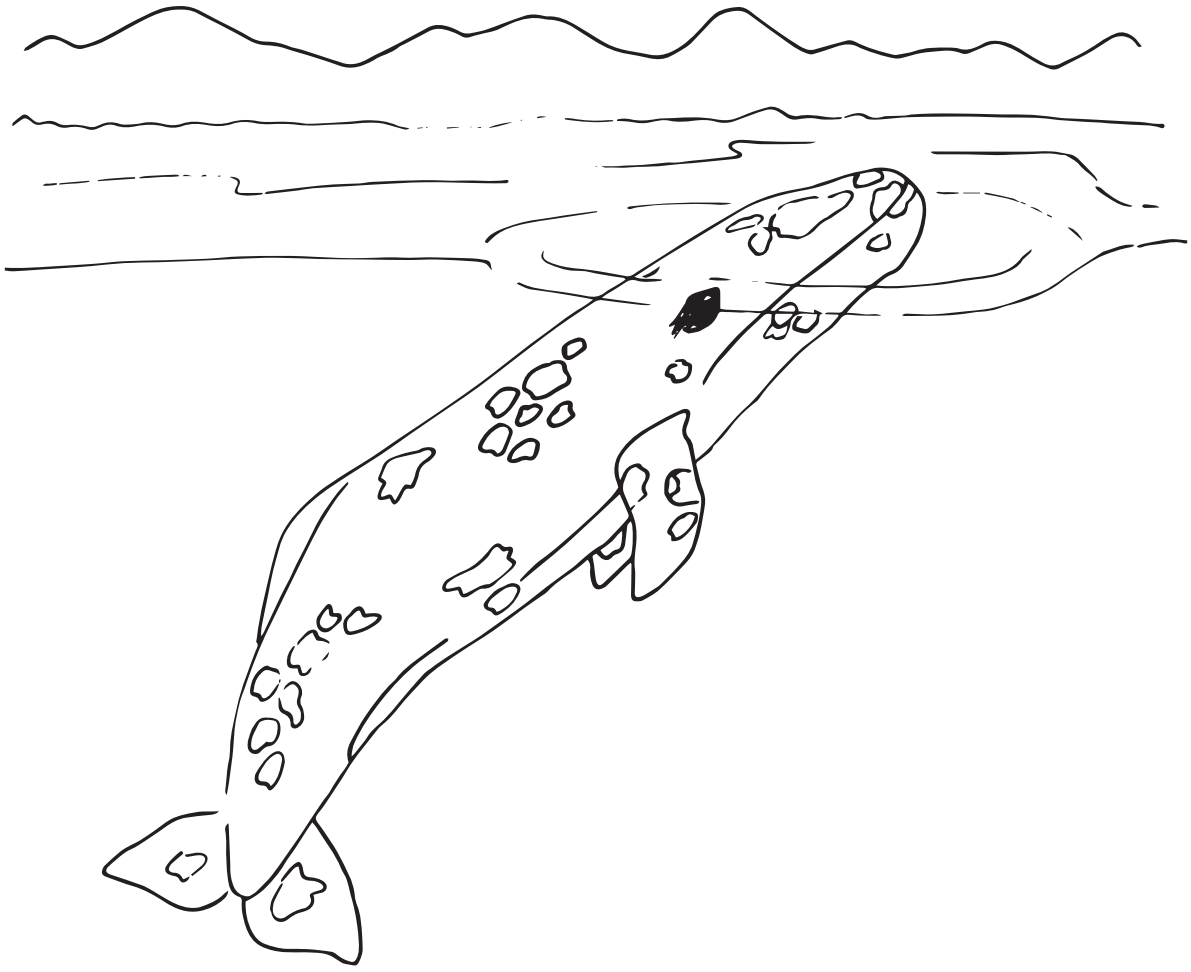

I inhabit shallow freshwater environments, such as marshes, rivers, streams, and lakes. I like to snack on various fish, amphibians, reptiles, birds, and mammals.

fold

## African Elephant

I am the largest land animal in the world.  
I am an herbivore and feed only on grasses, fruits, tree leaves, bark, shrubs, and vines.

fold

## Gray Whale

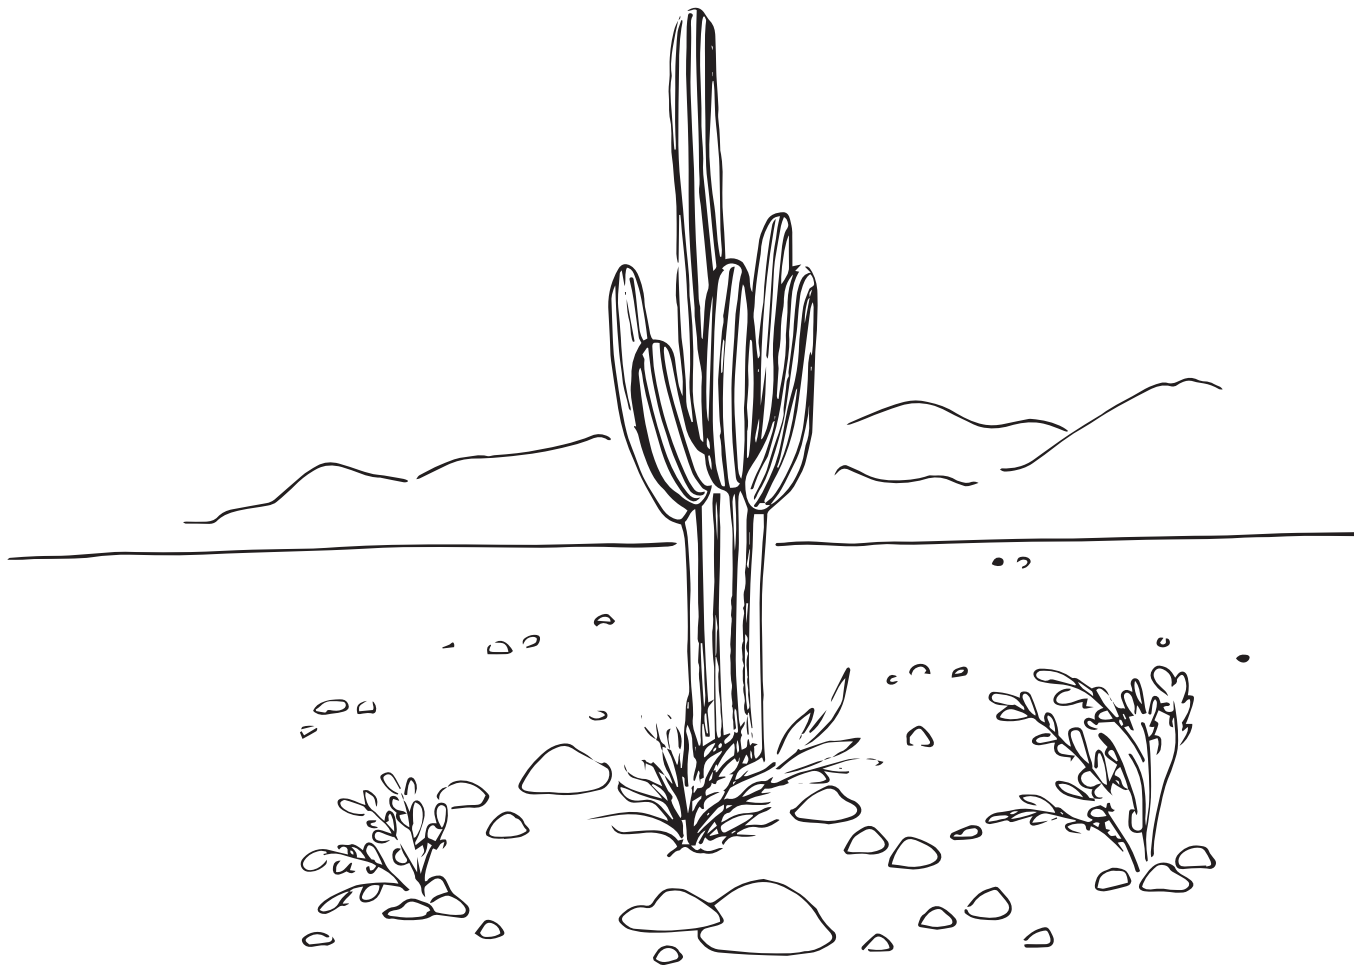

I am an extremely large marine mammal that lives in the largest of the world's oceans. I spend the summers in the cold waters of Alaska, and winters in the warmer waters of Mexico.

fold

## Golden lion tamarin

Although I look like a very small lion, I am actually a monkey from South America.  
I live in the coastal lowland forests.

fold

## Saguaro

I am a cactus that lives in parts of Arizona, Mexico, and California.  
I have white and yellow flowers, and sweet ruby-red fruit.

fold

## Fragrant Water Lilies

I am rooted in soil in water, but my leaves and flowers float on the surface.  
I grow throughout the United States and Canada.

fold

## Cattails

I often grow in the shallows of large freshwater marshes ponds.  
I make the perfect hideout and habitat for the many species of animals that live in the marsh.

fold

## Baobab Tree

I am native to Africa.

By storing water in my extremely large trunk, I can go long periods of time without any rain.

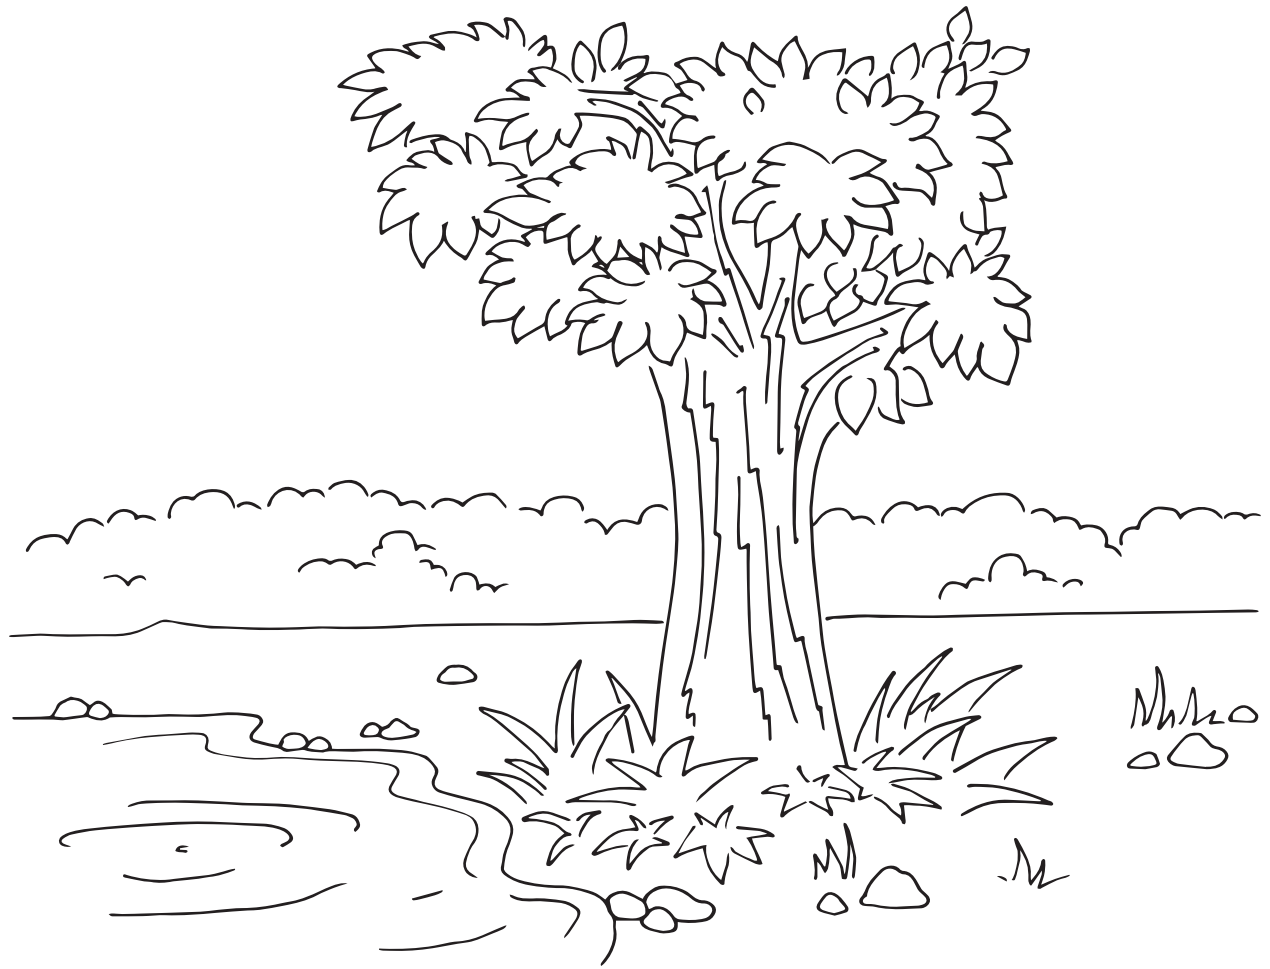

fold

## kelp

I grow in cold, clear, salty water.

I am both the largest marine plant and the fastest growing plant in the world.

fold

## Kapok Tree

I grow in lowland forests.  
I require a large amount of water to grow.
